All-in-One Remote Monitoring and Management Platform

ninja RMM

Monitor and Remediate with Power and Simplicity

NinjaRMM simplifies and automates the day-to-day work of managed service providers so they can focus on complex, value-added services, client relationships, and growth. NinjaRMM is a powerful, easy-to-use remote monitoring and management platform that provides a single-pane-of-glass view into all your endpoints and the tools you really need to improve delivery.

Get insights at-a-glance

See the status of all your endpoints and know what needs immediate attention across all your customers with a single-pane-of-glass view.

Improve customer support

Keep your clients happy and ticket volumes low by identifying and remediating issues before end users report them.

Do more with less

Easy-to-use remediation tools and powerful automation allows your staff to spend less time on day-to-day remediation while achieving better results.

Complete tasks faster

Unlike legacy, on-prem solutions, Ninja is cloud native. Everything in Ninja can be done in fewer clicks with a quick, responsive UI so you can complete tasks faster.

Focus on growth

Less time managing unhappy clients and at the keyboard mean you can spend more time on what matters most – finding and signing new clients to drive business growth.

Features

Endpoint Management

Monitor and manage endpoints, servers, and virtual machines.

Network Management

Monitor and manage network devices.

Asset Management

Track inventory, usage, and the health of your hardware, software, and subscriptions.

Mobile App

Monitor IT assets and remediate on-the-go via your iOS or Android device.

Managed Antivirus

Monitor endpoints and keep them secure with a single view of threats.

Patch Management

Install, deploy, and update endpoint software to keep your network safe.

Scripting and Automation

Automate daily tasks with a powerful 150+ scripting library or build your own.

Remote Access

Take control of endpoints via built-in remote access tools.

Custom Branding

A customizable client portal, reports, and systray icon keeps your brand front-and-center.

Credential Exchange

Get seamless and secure access to client endpoints without sharing admin permissions.

User Administration

Give clients and technicians access to only their assigned endpoints for a true multi-tenant experience.

Reporting

Keep track of your assets, employees, and tasks, and report on outcomes.
